Ingredients :

Sugar substitute with fiber and sweeteners: Polydextrose, soluble corn and chicory fiber, sweeteners (erythritol, isomalt, sucralose).

To conclude

Use Zùsto for

Your baked goods, trimmings and fillings, breakfast cereals, sweets, chocolate, ice cream and sorbets, jams, dairy products or any other application where you use sugar.

Zùsto and the positive effects on health

For those who wish to prevent products containing added sugars, especially diabetics and those who want to lose weight, can include Zùsto in their diet. In addition, Zùsto contains a lot of healthy fibers and prebiotics, which most people do not eat enough.

Why is Zùsto different from other sugar substitutes?

Most other sugar substitutes are based on one or two sweeteners. Apart from the softness, they do not contribute anything to your health and cannot generally replace sugar in a 1:1 ratio. You have to adapt the recipe, and many results have not been very successful. Also, Zùsto is not laxative like most other sugar substitutes.

I am waiting to hear from you
